BROCKVILLE—The chief town of the united counties of Leeds and Grenville, is situated at the foot of the Lake of a Thousand Islands, on the left bank of the St Lawrence, 125 miles S.W. of Montreal. It is a port of entry, an important station of the Grand Trunk railway, the southern terminus of the Brockville division of the Canada Central railway and a port of calling of all steamers plying on the St Lawrence. The streets of the town are well laid out, lighted with gas, and adorned with numerous handsome buildings. Here are agencies of the Bank of Montreal and Molson's Bank and several fire and life assurance companies, Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. The town has churches of all denominations, foundries and machine shops for the production of steam engines, stoves and machinery of every description, tanneries, mills and factories, producing all the staple articles, and chemical works for the production o sulphuric acid and superphosphate of lime, the materials for which are found in the vicinity of the town. One daily, the *Evening Recorder*, and 2 weekly newspapers, the *Monitor* and the *Recorder*, are published in Brockville. Pop. 8,000.

Dear Sirs,—I beg to acknowledge the uniform courtesy and punctuality received at the hands of correspondents connected with your Agency in reply to letters of enquiry. Faithfully yours, W. HENDRY, Manager. Waterloo, Ont., June 22, 1881.

CHATHAM—The town of Chatham is situated at the head of navigation on the River Thames, it is the great trade centre for the richest agricultural belt in Ontario. 67 miles from London and 46 from Windsor, with no large towns to the north or south, it is commercially the metropolis of the western peninsula, in the exact centre of the county of Kent, and equi-distant from the counties of Essex and Lambton. It at least is the point of conveyance of the lines of trade over which ride the produce and purchases of one hundred thousand people. For many years its market has been equal to London and Toronto, and during this year, 1881, it lead both these important cities in the price paid for wheat. These facts are explainable partly by the advantages of the Thames, through whose waters vessels and steamers may plow even of two hundred and fifty feet keel, and partly by the superiority of the wheat produced in the peninsula. The above remarks will suggest as the leading industry, the milling business. The flour trade is simply enormous, seven large mills run night and day a large portion of the year, turning out from one hundred, the smallest, to three hundred and fifty, the largest, barrels per day. The export trade of Chatham is very encouraging. In the cereals from one and a half to two million bushels annually are shipped, while in pork, beef, poultry and other meats, at least $1,000,000 are yearly paid out. Its imports are larger than any town in Canada, amounting to two hundred tons per annum. In other industries Chatham can not be said to equal the more enterprising of its sister towns. This arises solely on account of the lack of railway facilities, which denied to our manufacturers the advantages of competetive railway rates. The disability is now about to be removed by the completion of the Erie and Huron railway, whose termini are Sarnia on the north and the beautiful Rondeau on the south, opening up a magnificent tract of land to the north. In public improvements Chatham is making rapid strides, its parks are large and picturesque, its bank buildings are superior, and the post office, which the government are about to build, is said to be on a large scale. There are large foundries, machine shops, woollen mills, pot and pearl asheries, soap, candle and other factories in the town, also 13 churches, several hotels, agencies of the Merchants Bank of Canada, Canadian Bank of Commerce and Federal Bank of Canada and a fine station of the Great Western railway. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here, and four newspapers are published, the *Planet, Tribune, Banner* and *Missionary Messenger*. Historically Chatham is not without its "annals to thrill and its deeds to chronicle." In connection with the aborigines. its unwritten history is most interesting, on every acre Tecumseh and his braves brandished their tomahawks among the untrimned boughs of Chathams first forest, and on the spur of land made by the confluence of McGregor's Creek and the Thames, that Indian warrior urged the propriety of meeting the advancing Americans, and violently opposed the idea of a further retreat up the river. In its early days Chatham was made a garrison town, the results of which are least pleasant to dwell upon of all Chatham's history. During the last decade the increase of population has been large per cent. and now with a population of 8,000, the broad Thames and two lines of railways to carry in and out the traffic of the peninsula, its future as a commercial centre may easily be forecast. Distant from Windsor 46 miles, from London 70 miles, from Toronto 176 miles. Mail daily.

Adams Wm., crockery and groceries, cor Queen and Lorne av

CLINTON—An incorporated town at the junction of the townships of Hullett, Tuckersmith and Goderich, county of Huron. This place has grown rapidly within the last few years, and still continues to increase. Large quantities of grain and all kinds of country produce are brought to this market. It contains 5 churches, 7 hotels, a branch bank, a woollen and organ factory, 1 iron foundry, 1 tannery, 1 flouring mill, 1 grist and saw mill and 2 weekly newspapers, the *Huron Record* and the *New Era.* The traffic receipts at Clinton station are said to be more than half those of the 14 stations from Brantford to Buffalo. Clinton has many large mills and factories, as well as numerous handsome and well filled stores. It is fast becoming a great business centre. Salt wells are in operation, which yield on an average over 200 barrels per diem. The Huron road passes through this village. It is a station of the Buffalo and Goderich branch of the Grand Trunk railway and also of the London, Huron and Bruce railways. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. Distant from Goderich 12 miles, from Stratford 32 miles, from Paris 64 miles, from Brantford, 72 miles, from Buffalo 147 miles, from Toronto 120 miles. Mail daily. Population about 2,500.

COBOURG—An incorporated town very pleasantly situated on the north shore of Lake Ontario, in the township of Hamilton, county of Northumberland. It possesses most of those advantages which conduce to prosperity, and, no doubt, as capital accumulates in the country, and is devoted to the development of the natural resources with which the vicinity abounds, to the establishment of manufactures and to the extension of lines of railways, it will rank with any town in the Province. It is the capital of the county, and the market town of an exceedingly beautiful and fertile section of country, and has a safe and commodious harbor, from which considerable quantities of farm produce, lumber and iron ore are annually exported. The town, which is lit with gas, is very prettily laid out, the broad and spacious streets for the most part intersecting each other at right angles, and being adorned with several fine public buildings and numerous elegant residences. The most noticeable amongst the former are Victoria hall, containing the Town hall, corporation and county offices, erected at a cost of over $1 0,000, the churches of the various denominations and Victoria university. This latter institution was founded as an academy in 1836, and as a university in 1841, and is under the management of the Methodist Church in Canada. It is affiliated with faculties of law and medicine in Montreal and in Toronto. The manufacturing interests of Cobourg are represented by the woollen mills, a car factory, and several foundries, mills and breweries. The town also contains 3 branch banks, agencies of 10 or 12 assurance and insurance companies, and churches for the Episcopalians, Roman Catholics, Presbyterians, Wesleyan and Episcopal Methodists, Congregationalists and Bible Christians. Two weekly newspapers, the *Cobourg World* and the *Sentinel-Star* are published here. It is

NEW FEATURE.—The Citizens Insurance Co. is the only Company granting an allowance for disfigurement of the body the result of accident. CORNWALL—An incorporated town situated at the mouth of the Cornwall canal, on the River St Lawrence, where it expands into Lake St Francis, a short distance below the Long Sault Rapids, township of Cornwall, county of Stormont. It is the chief town of the united counties of Stormont, Dundas and Glengarry, and a port of entry. The Grand Trunk railway has a station here. The business of the Registry office, and of the Circuit and principal law courts is transacted here. To avoid the Long Sault Rapids, immediately above the port, a canal has been made, extending to Dickinson's Landing, a distance of 12 miles. This canal affords excellent water-power, and several large factories and mills have been erected on its banks, prominent among which are 2 cotton mills, 1 saw mill, 3 planing mills and a sash and door factory. The town contains Episcopal, Roman Catholic, Presbyterian and Methodist churches, an agency of the Bank of Montreal, 2 weekly newspapers, the *Freeholder* and the *Reporter* and 8 hotels. A considerable amount of flour is shipped at this place for Montreal. The steamers of the Canadian Navigation Co. and the Montreal and Bay of Quinté steamers call here, and there is a bi-weekly line of steamers from this place to Montreal and intermediate ports. Montreal, Dominion and Great Northwestern Telegraph Cos Lines have an office here. Distant from Montreal 67 miles, from Kingston 105 miles, from Toronto 266 miles. Mail daily. Population 5,000.

ELORA—A romantic village on the Grand River, near its junction with the Irvine River, townships of Nichol and Pilkington, county of Wellington. Elora was erected into a municipality in 1858. It has excellent water-power with a beautiful fall of 40 feet on the Grand River, the rocks rising perpendicularly on either side of the Grand and Irvine Rivers to a height of 70 feet; the scenery around is very beautiful. It is the centre of a splendid agricultural country, has monthly cattle fairs, and is one of the most prominent markets in Ontario for cattle and grain. Durable stone for building purposes is found here. There are grist and planing mills, a tannery, an extensive foundry, a brickyard, woollen, chair, sash, door, barrel and carpet factories, the latter the largest in the Dominion, and a fine county grammar school. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. It is an important station of the Wellington, Grey and Bruce railway and the terminus of the Elora branch of the Credit Valley railway. A weekly newspaper, called the *Lightning Express*, is published in Elora, and there is a private bank. Distant from Guelph 14 miles, from Toronto 60 miles. Mail three times a day. Population about 1,600.

FENELON FALLS—A flourishing village situated on the River Fenelon, between Cameron and Sturgeon Lakes, on the line of the Trent waters, township of Fenelon, county of Victoria. The surrounding country is well settled, and the facilities for lumbering are almost unprecedented. The waters of large rivers and lakes which have their sources within a short distance of the Ottawa, and are fed with streams from every quarter of a fine growing country, flow into Cameron's Lake. An extensive lumber business is carried on. The falls on which R. C. Smith's mills are situated resemble in miniature the Horseshoe at Niagara, and are about 20 feet high and 300 feet wide. There is a daily train on the Victoria line of railway to and from Lindsay, the county town, and also to and from Kinmount, Minden and Haliburton. There is a daily steamer to and from Coboconk, the present terminus of the Toronto and Nipissing railway. A daily stage runs to and from Bobcaygeon. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. A newspaper is published weekly, *The Gazette*. Rose Chris., weaver
Schmehl Henry, weaver
Schmidt Henry B., bookkeeper
Wettlanfer Geo., agent
Witzel Peter, blacksmith

GALT—An incorporated town in the township of North Dumfries, county of Waterloo. It is pleasantly situated on both sides of Grand river, near the mouth of Mill Creek, and on the main line of the Credit Valley railway. It is also a station of the Wellington, Grey and Bruce division of the Great Western railway, and the terminus of the Galt branch of the Grand Trunk railway. Grand River affords a superior water-power, and there is probably not another town of similar size which has entered more extensively into the manufacturing industry or offers equal facilities to manufacturers. The town boasts of many handsome buildings. Its situation in the centre of a rich agricultural district renders its prospects most encouraging. Montreal, Dominion and Great North Western Telegraph Cos. Lines have an office here. There are also agencies of the Merchants' Bank of Canada and the Canadian Bank of Commerce. Two weekly newspapers are published, the *Reporter* and the *Dumfries Reformer*. Distant from Berlin, the county town, 12 miles; from Guelph 14 miles, from Hamilton 25 miles, from Toronto 60 miles. Mail daily. Population 5,189.

Stewart William McDonald, postmaster and general store

GANANOQUE—A large and flourishing incorporated village on the Gananoque River, at its confluence with the St Lawrence, township and county of Leeds, and on the Grand Trunk railway. The former stream is dammed at two places, affording an almost unlimited water-power, which has been so far utilized that the village is now one of the most important manufacturing places in the Dominion. Being opposite the most beautiful part of the Lake of the Thousand Islands, celebrated for its scenic and sporting attractions, it is a favorite resort of tourists and pleasure seekers. It contains churches of 5 denominations, 1 branch bank, several assurance and insurance agencies, a newspaper, the *Reporter*, published weekly, 8 hotels, 2 saw mills, 2 grist mills, manufactories of woollens, iron castings, edge tools, machinery, agricultural implements, nails, leather, organs, wooden ware and boots and shoes. It is a port of entry. The steamers of the Canadian Inland Navigation Co, and other lines plying between Montreal, Kingston, Toronto and Hamilton, call here regularly. There is a station of the Grand Trunk railway 2½ miles from the village. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. Distant from Clayton, N.Y, 9 miles, from Kingston 18 miles, from Brockville 36 miles, from Montreal 155 miles, from Toronto 178 miles. Mails daily. Population 3,000.

GARDEN RIVER—An extensive Indian reserve on the bank of the River St Mary, township of Sault Ste Marie, district of Algoma. It extends along the river about 9 miles, and about the same distance into the interior. The village takes its name from a stream called Echo River running from the interior in a southerly direction, and emptying itself into the River St Mary at this spot. There is a small English settlement in the vicinity. The Indians occupy themselves in hunting, fishing, agriculture, boat-building, lumbering, etc. There is a saw mill and two silver mines are worked 9 miles north, the Victoria Consolidated and the Cascade. The Royal Mail steamers call on their way from Collingwood to Fort William. Distant from Sault Ste Marie 12 miles, from Bruce Mines 40 miles, from Collingwood 360 miles. Mail weekly in summer, fortnightly in winter. Population about 500.

Bradley Nathan, & Son, gen store

GODERICH—A lake port of Ontario, chief town of the county of Huron, pleasantly situated on the bank of the river Maitland, where it empties into Lake Huron, and at the Northern terminus of the Buffalo and Goderich branch of the Grand Trunk railway. It has churches for the Episcopalians, Roman Catholics, Presbyterians and Methodists, 2 branch banks, several assurance and insurance agencies and 3 flouring mills; also manufactories of iron castings, machinery, leather, boots and shoes, wooden ware, etc., and the International salt works, Tecumseh salt works, Platt's salt works, North American Chemical Co.'s salt works, and Ogilvie & Hutchison's salt works. The latter are of great value, and a source of considerable wealth to the town. The fisheries are also valuable; their products are chiefly exported to the United States. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. Goderich has daily communication by steamers with Sarnia and Detroit, and ports on the South shore of Lake Huron. It is a port of entry, and the only shipping point for many miles on the Lake. It has a good harbor, protected by a pier with a lighthouse at the mouth of the Maitland River. Three weekly newspapers are published here, the *Huron Signal*, *Goderich News*, and *Goderich Star*. Distant from Buffalo 160 miles, from London 78 miles. Population 4,200.

ROYAL HOTEL,

GUELPH, - - - Near the G. T. R. Station.

The Leading Hotel of the City.

Ample Sample Rooms for Commercial Travellers.

FREE BUS MEETS ALL TRAINS.

BOOKLESS & GALER, Proprietors.

GUELPH—A city on the River Speed, township of Guelph, county of Wellington. The river passing through the township affords excellent water privileges to a number of mills of all descriptions. Guelph contains some first-class factories, several large breweries, three sewing machine and two melodeon establishments. One of the latter, owned by W. Bell & Co., is noted for its productions, which find great favor in the west. This city is the centre of a rich agricultural district, has a large retail country trade, and exports considerable quantities of wheat and flour. The institution known as the "Ontario School of Agriculture and Experimental farm" is situated about a mile to the south of the city, in the centre of an extensive agricultural and noted stock-raising distrect, readily accessible by rail from all parts of the Province. The farm consists of 550 acres, about 400 or which are cleared. It is composed of almost every variety of soil, and hence is well suitted for the purpose for which it was selected. No place in Canada presents more excellent manufacturing facilities. Here are several beds of whitish sub-crystalline, dark brown and black dolomite, which yield an excellent building stone. Valuable quarries are worked near the city. Some of the beds are burned for lime. This is one of the chief stations of the Grand Trunk railway and a station of the Wellington, Grey and Bruce railway. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. The Bank of Montreal, Canadian Bank of Commerce, Federal bank and Ontario bank have agencies in Guelph.

Lovell's Gazetteer of B. N. A. John Lovell & Son, Montreal. Price $3.

The Royal hotel is conducted by the courteous and enterprising proprietors, Messrs Bookless & Galer, it is situated directly opposite the Grand Trunk railway depot, and is elegantly fitted up with every requisite for the pleasure and comfort of its guests. Convenient sample rooms are pr vided for commercial travellers, and their accommodation carefully attended to. A first class livery stable is attached, and a free bus attend all trains. Two daily newspapers are published, the *Mercury* and *Herald*, and three weeklies. Distant from Toronto 47 miles. Population about 10,000.

Cusic Chris., gen store
Kean Alex., waggonmaker
Kean Hugh, blacksmith
Meade R. L., shoemaker

HAMILTON—The "Ambitious City" is beautifully situated on the south-western curve of Burlington Bay, township of Barton, county of Wentworth. It occupies a delightful position on a plateau of slightly elevated ground winding around the base of a mountain, and has superior facilities for becoming a large manufacturing city, being accessible from all points by railway and lake navigation, and being situated in the very centre of the finest grain-producing country in the Dominion. The Great Western railway and its branches, having an entire length of three hundred and fifty miles, soon to be increased by the building of the "loop line" from Canfield, on the line of the Grand Trunk Railway, to Glencoe, and passing through the most fertile and populous portions of Ontario, has done much to advance the prosperity of Hamilton. Here are located the chief offices, workshops, rolling mills, grain elevators, &c., connected with the company, in which hundreds of men find employment. The Great Western forms part of the great central route running from the Atlantic to the Pacific, comprising the Hudson River, Boston and Albany, New York Central, Great Western of Canada, and Michigan Central railroads, passing daily through Hamilton, and connecting at every important point with all other railway and steam navigation. The certain prospect of the early completion of the Wellington, Grey and Bruce railway to lake Huron and Georgian Bay, 18 miles of which is now in running order, and other portions under contract, will further tend to increase the mercantile and manufacturing establishments in the city, and add still more to its general prosperity. In addition to the extensive works of the Great Western railway, Hamilton boasts of other large manufactories which will bear favorable comparison with any in the Dominion. The streets of the city are generally laid out at right angles, running north and south from the bay, and crossed by others running east and west. The buildings are chiefly of stone and brick, many presenting an imposing appearance. The chief business streets are King, James, John, York, and McNab. The several banks have branches here, and the bank buildings, as well as the public buildings, churches, and many of the stores are handsome and costly structures. The city is well lighted with gas, has an excellent system of drainage, and possesses magnificent water works, the supply to the reservoir of which is brought from Lake Ontario, a distance of nine miles. On the rising ground approaching the mountain are a number of elegant residences, having tastefully ornamented and well laid out grounds. From the mountain itself, a magnificent view is to be had of the surrounding country. Burlington Bay is a large and beautiful basin of water, navigable in all parts within a few feet of the shore, and makes one of the safest and most commodious harbors on the lakes. Five miles from Hamilton, connected by rail, and by the Desjardins canal, is Dundas, a thriving manufacturing place, having the advantage of a stream which rushes with great impetuosity through its centre, working on its way numerous mills. Hamilton returns one member to the House of Commons and one to the Provincial Parliament. In summer daily lines of steamers and propellers ply between Hamilton, Toronto, Kingston, and Montreal, while at all seasons of the year there is direct communication with these cities by the Great Western and Grand Trunk railways. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. Distant from Niagara Falls Suspension Bridge 43 miles, from St Catharines, the "Saratoga of Canada," 31 miles, from London 76 miles, from Toronto 38 miles, from Montreal 371 miles, from New York 511 miles. Mail daily. Population about 34,268.

* The post office is at Nassagaweya.

Guerin Michael, postmaster and grocer
McCann M., blacksmith
McGuire B., blacksmith
Ostrom B., gen store
Smith John, hotel
Sullivan R., blacksmith

INGERSOLL—An incorporated town on the River Thames, townships of North and West Oxford, county of Oxford. It contains two of the largest agricultural implement manufactories in the province of Ontario; the one owned by Messrs. Noxon Brothers, employing upwards of 100 hands; the other, belonging to Thomas Brown, employing upwards of 80 hands. There is also a large woollen mill owned by Messrs. Waterhouse & Bradbury, which employs 13 hands. This place is increasing very rapidly in population and importance. Wheat and other grain and cheese form the trade of the town and the surrounding country, and are exported extensively. The manufacture of cheese is largely carried on on the factory system in the surrounding districts, and Ingersoll has always been, since the commencement of the trade, its chief centre. The trade is principally an export trade to Great Britain. Ingersoll possesses many handsome public buildings, and the private residences display excellent taste. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines and Bell Telephone Co. have offices here. This place is one of the chief stations of the Great Western railway, 4 passenger trains passing west and 5 east daily. The Credit Valley railway has now its western terminus at Ingersoll, but the road will shortly be opened through to St Thomas, where it will connect with the Canada Southern. The Merchants Bank of Canada, Molsons Bank and Imperial Bank have agencies here. Three weekly newspapers are published, the *Chronicle*, *Tribune* and *Sun*. Distant from London 19 miles, from Port Burwell, on Lake Erie, 32 miles; from Toronto 140 miles, from Tilsonburg 15 miles. Mail daily. Population, census 1881, 4,322.

O'Connor Pat., flour mill
Redmond John, nursery
Sargent Robert, financial agent
Toban Pat., plasterer and paper hanger

KINGSTON—The chief town of the county of Frontenac and the fifth city in the province, is pleasantly situated at the head of the Thousand Islands, River St Lawrence, where Lake Ontario, the last link of the chain of the inland seas of the west, together with the Bay of Quinté and the great Cataraqui creek, are united with the mighty channel which conveys and empties their waters into the Gulf of St Lawrence. It is one of the oldest settled localities in Ontario, and occupies the site of the old French fort of Frontenac, lat. 44° 12′ N., lon. 76° 41′ W., from Greenwich; was founded in 1784 and incorporated in 1838. As a place of defence it stands next in strength to Quebec. The batteries of Fort Henry are calculated for the reception of numerous cannon and mortars of the largest calibre. These, together with neighboring martello towers, form a formidable and efficient defence against any aggressive movement which might be directed against the city or neighboring country. Opposite Kingston are Wolfe and Garden Islands, between which and the city lies the bay, a beautiful sheet of water forming a safe and commodious harbor for vessels of any draught. On the other side of the islands is Cape Vincent, in the State of New York. Steamers constantly ply between the city and this place connecting with the Rome and Watertown railway. Kingston possesses good wharves, and is in every respect well adapted for the large grain shipping trade carried on here. It has also the best facilities for building ships and steamboats. Locomotives, cars, steam engines, agricultural implements, stoves of every description, pianos and melodeons are manufactured in Kingston. The Canadian Engine and Machinery Co. is the largest manufacturing establishment in the city; it gives employment to 167 men, and manufactures locomotives and cars on the most approved principle. Besides it there are several large foundries, tanneries, breweries, etc. The Grand Trunk railway passes within two miles of the city hall, and is connected with the city by a branch line. The head offices of the Kingston and Pembroke railway are here. This road runs to Mississippi, a distance of 61 miles. Direct water communication is had between Kingston and Ottawa by means of the Rideau Canal, the entrance to which is here, with Montreal, Toronto, Rochester, Hamilton and Niagara Falls, and with Belleville and other ports on the Bay of Quinté. Adjacent to the city is Portsmouth, a flourishing village, where the Penitentiary and Lunatic asylum are located. Kingston possesses two colleges—Queen's and Regiopolis—and has several handsome public buildings, such as the court house, custom house, city hall, banks, post office, hospital and churches. It is the chief seat of the R. catholic bishop of Kingston; and returns two members—one to the House of Commons and one to the Provincial Parliament. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. The Bank of Montreal, Bank of British North America, Merchants Bank of Canada and Federal Bank have agencies here. Two daily and two weekly newspapers are published, the *Daily and Weekly News* and the *Daily and Weekly Whig.* Distant from Ottawa 95 miles, from Toronto 161 miles, from Montreal 172 miles. Mail daily. Population about 15,000.

F. GROSS'

CHEST EXPANDING STEEL SHOULDER BRACES

MANUFACTURED AT THE

Before Using.

CANADA TRUSS FACTORY,

688 & 690 CRAIG STREET,

MONTREAL.

After Using.

THIS is an entirely new and superior article for Ladies and Gentlemen who have acquired a habit of stooping This Brace is certain to answer the purpose of keeping the chest expanded and the body upright. The two Steels on the back running over the shoulder blades, giving a gentle and even pressure, will prove conducive to health and gracefulness; and, being strong and well made, will last a long time, and always feel comfortable For Gentlemen, this Chest Expander will enable them to do away with the common Suspenders (which are injurious to health).

CAUTION TO PARENTS.

Parents, look to your children! Gross' newly-invented Steel Shoulder Braces are almost indispensable for children, as they are liable to contract the habit of stooping and shrugging their shoulders at school, causing them to grow narrow-chested, and laying the foundation for consumption and lung diseases. Parents should bear thi in mind, as wearing my Braces will counteract this bad habit.

The prices of my "CHEST EXPANDING STEEL SHOULDER BRACE" are :—

For Adults - - $2.00; $2.50; $3.00, or Best $3.50.

For Children - - - - $1.50; $2.00, or Best $2.50.

Take circumference round waist, and length from under the armpit to top of hip bone.

By remitting amount, as also 25 cents postage stamps, I will forward them by parcel post free of charge.

F. GROSS'

PARLOR GYMNASIUMS.

A NEW AND USEFUL INVENTION, whereby a great variety of bodily exercise may be obtained without the inconvenience of erecting cumbersome, expensive, or unsightly apparatus. It requires but little space, and can be fastened to any door or window casing, or other woodwork of any room, office, or school.

PRICE, $4.00.

☞A descriptive Pamphlet, with directions, accompanies each Gymnasium.

INDIAN CLUBS, DUMB BELLS, BOXING GLOVES, &c., &c.

McFarlane Wm., shoemaker
Maxwell John, M.D., physician and surgeon
Smith David, carpenter

LINDSAY—The county town of Victoria, and one of the most thriving places in the midland section of the Province, is situated on the River Scugog, and on the Midland, Victoria and Whitby and Port Perry railways, in the township of Ops. Having excellent water communication with a long chain of inland lakes, extending on both sides of it, by means of quite a numerous fleet of steamers, and being on the line of the Midland railway, it possesses every advantage for the shipment of the immense quantities of lumber, sawn and square, annually taken from the almost illimitable forests which stretch away to the rear of the county, and also for an extensive trade in grain and flour, the produce of the fine agricultural country by which the town is more immediately surrounded. It contains 8 churches, and schools, 2 branch banks, 1 grist mill, 4 saw mills and manufactories of iron castings, machinery, leather, woollen goods, woollen ware, extract of bark, boots and shoes, and paper. Two weekly newspapers the *Canadian Post* and the *Victoria Warder*, are published here. The town is built principally of brick, and besides the county buildings, churches, Union and R. catholic schools, there are several fine blocks of stores. Stages leave daily for interior parts of the county. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. Distant from Milbrook 28 miles, from Peterborough by rail 38 miles, from Port Hope 43 miles, from Toronto 65 miles. Mail daily. Population 5,478.

LONDON—The westernmost city in the Dominion of Canada, is beautifully situated on the River Thames, county of Middlesex. It is the chief seat of the county, and honestly boasts a more rapid and prosperous growth than any city in British North America. Fifty years ago its present site was a wilderness; now it is a fine city, regularly laid out, having wide streets, well built upon with handsome buildings, and has the best of railway communication with all parts of Canada and the United States. By bestowing on its streets, bridges and surroundings, familiar names to former residents of the metropolis of the world—such as, among others, Pall Mall, Bond, Piccadily, Oxford, Waterloo, and Clarence streets, Westminster and Blackfriars' bridges, &c.—it endeavors to cluster round it fond recollections of its great namesake. Its situation has justly earned for it the title of the "Forest city." It is surrounded by a rich agricultural district, which furnishes it with a large trade in wheat and other produce. In the city are a number of manufactories, mills, machine shops, foundries and breweries, while immediately outside its limits are very extensive petroleum refineries. These all give employment to a large body of men, and add greatly to the wealth and importance of the city. Richmond and Dundas are the principal business streets. Some of the buildings on these, as on other streets throughout the city, give evidence of good architectural design and beauty in construction and finish. On Richmond street is the City hall, Post office, Montreal, Dominion and Great Northwestern Telegraph Cos. Lines office, Custom house, Bank of Montreal, Bank of British North America, Merchants Bank of Canada, Canadian Bank of Commerce, Federal Bank of Canada, the Molsons Bank, Cronyn hall, St. Peter's church, R. catholic, St. James church (the Kirk), and St. Paul's cathedral. The latter is a handsome brick structure, and possesses a lovely chime of bells, the sound of which must tend to revive the reminiscences of many who lived in the old land. Covent Garden market is situated on King street, the Court house, Jail and Law offices on Ridout street, and throughout the city are churches of all denominations, schools, colleges, masonic, oddfellows and temperance lodge rooms, &c. On Great Market street is the Crystal palace, a fine building erected for exhibition purposes, and attached to which are large and well adapted show grounds. On an eminence in the northern part of the city, surrounded by extensive grounds, is Huron college, established in 1863, Hellmuth college, established 1865, and Hellmuth Ladies college, established 1869. These aie all fine brick structures, and have at ther head the Lord Bishop of Huron. The best of professors are attached to each, and the highest branches of education are taught. Five railway companies run their trams through the city, the Grand Trunk, Great Western, London and Port Stanley, London, Huron and Bruce, and New York Central, a third rail having been placed on the Great Western road for the accommodation of the latter. The stations and offices of these companies are situated between York and Bathurst streets. The depot of the Great Western is a large, fine brick building. This company have also extensive workshops here. Opposite their depot, on Richmond street, is the Tecumseh house, one of the largest hotels in the Province. On the corner of Richmond and King streets is the Revere house, and on Dundas street, near Richmond, is Strong's well-known hotel. A short distance from these hotels, at the foot of Dundas street, are the White Sulphur Springs, the famed medicinal and health invigorating qualities of which attract large numbers of invalids and tourists during the summer months. London is lighted by gas, is a port of entry, has a Board of Trade, and has three daily, besides several weekly, newspapers. A number of its business men, and others employed in the city, reside in Westminster and Petersville, beautiful districts surrounding the city and situated on the opposite banks of the river Thames. Distant from Port Stanley 24 miles, from Stratford 32 miles, from Chatham 45 miles, from Sarnia 61 miles, from Hamilton 76 miles, from Toronto 115 miles, from Montreal 453 miles. Mails daily. Money Order office and Savings bank. Population, of city proper, about 20,000; including suburban districts, about 25,000.

F. GROSS,

688 and 690 CRAIG STREET, MONTREAL.

IMPORTANT TO FARMERS AND COW-KEEPERS.

THE OLD LABORIOUS AND TEDIOUS PROCESS OF HAND-MILKING SUPERSEDED.

New Improved Self-Acting Cow Milker,

PRICES: METALLIC $1.50, NICKEL-PLATED $2.00, SILVER $2.50.

NO FARMER SHOULD BE WITHOUT THEM.

F. GROSS has much pleasure in calling the attention of COW-KEEPERS, Farmers and Dairymen to this NEW IMPROVED SELF-MILKING APPARATUS. This Apparatus or Cow Milker has been tested by a large number of practical Agriculturists, Dairymen, &c., and without exception merited high enconiums and commendations for its adaptability and wonderful rapidity in the Milking of Cows. It is considered one of the most invaluable and useful Machines ever invented.

Amongst its advantages, are :—

1st.—It is SELF-ACTING, easy of application ; and can be used by any person, however ignorant of milking.

2nd.—It will milk any Cow in FOUR minutes effectually, and its use is more agreeable to the Cow than Hand-Milking.

3rd.—It is a great boon in the case of Sore or Corded Teats.

4th.—Its Usefulness, Simplicity, saving of Time, Cleanliness, Durability, and Cheapness, prove it to be a most important and necessary adjunct to a Dairy, and it has only to become better known to be universally used.

By remitting amount and 15cts. postage I will forward a complete set free of charge.

NEWLY INVENTED PATENT REIN HOLDER.

This contrivance is for the purpose of holding the reins in the position in which the driver may place them when he stops. Having thus fastened the reins he can with safety leave his team anywhere with the same advantage as though he were there himself. It is small, simple in construction, and easily adjusted. For ladies, while driving the Rein-holder is indispensable in case the horse or, horses are restive the reins can be drawn and tightened without effort. Its advantages are obvious. Every vehicle, header, harrow, plough, cultivator or any article drawn by horses should have a Rein-holder, even if only to keep the reins off the ground.

The driver can slip the reins in and out with *ease.*

PRICES:—Malleable Iron, $1.00. Nickel Plated, $2.00.

See pages opp. 619, 669, 791, 935, *and page opp. Montreal Classification.*

MATTAWA—A post village at the confluence of the Ottawa and Mattawa rivers, district of Nipissing. It is a depot for the transmission of supplies still further up the Ottawa and Mattawa rivers in connection with the lumber business, and a station or fort has for many years been maintained here by the Hudson Bay Co., but, owing to competition from other traders in furs, its business is now comparatively limited. There is a small Roman Catholic chapel in this distant settlement, whose service is included in the mission of the Pères Oblats, and performed in the French, English and Iroquois tongues, there being in the neighborhood several descendants of the great Iroquois tribe. It has also 4 hotels and a saw mill. Distant from Rochcaptain, a landing of the Union Forwarding Co.'s steamers, 49 miles; from Sand Point 154 miles, from Rapides des Joachims 55 miles. Mail weekly. Population 500.

Wade & Thompson, agrl implts
Walters John B., agrl implts
Wood W. K., shoemaker

MORRISBURGH—An incorporated village on the River St Lawrence, at the foot of the Rivière du Plat Canal, township of Williamsburgh, county of Dundas. It is a port of entry. This place shows the most marked improvement of any village in the eastern section of the Province, a success which is owing to the magnificent country which surrounds it, the large shipping business done, and in no small measure to the spirit of enterprise which actuates its public and business men. There is excellent water-power, a large portion of which is utilized. It contains 4 churches, a branch bank, saw, grist and carding mills, 2 foundries, a tannery, several factories and hotels and 2 weekly newspapers, the *Courier* and the *Dundas County Herald.* Owing to the proximity of the rapids, the current of the river is very swift at this place, and the steamers of the Canadian Navigation Company seldom call in their downward passage. The boats of all other lines stop regularly, and a considerable amount of flour and other agricultural produce is annually freighted. A steamer plies at all seasons of the year between Waddington, N. Y., and this place. It is a station of the Grand Trunk railway. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. Distant from Winchester 18 miles, from Kingston 80 miles, from Montreal 92 miles. Mail daily. Population 2,300.

NAPANEE—An incorporated town on the river of the same name, townships of Richmond and Fredericksburg, united counties of Lennox and Addington It is the county seat. The Court house, gaol and public offices are here situated, and there is also a fine building for exhibition purposes. This place has of late years exhibited marked progress. A considerable quantity of lumber is annually exported hence down the Napanee river, which flows through the village into the Bay of Quinté, and a large amount of flour and other agricultural produce is freighted by rail and water communication. The village possesses excellent facilities for manufacturing purposes, and on the banks of the river are erected a number of mills and factories. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. A station of the Grand Trunk railway is within the limits of the corporation. Five weekly newspapers are pub-

NEW EDINBURGH—An important and very promising village in the township of Gloucester, county of Carleton, at the confluence of the Rideau and Ottawa Rivers, adjoining the city of Ottawa. The Rideau River here is the boundary between Ottawa and New Edinburgh, and falls into the Ottawa over a limestone ledge, a perpendicular distance of nearly fifty feet, forming a magnificent "curtain" from whence the name Rideau is derived. The surrounding scenery is of the most varied and interesting character. Rideau hall, the residence of the Governor General, is within the corporated limits, having been the former residence of the late Honorable Thomas Mackay, the founder of the village. The Rideau falls afford splendid water power, on which the saw, cloth and flour mills are erected. The street railway, which runs from Rideau hall gateway in New Edinburgh through Ottawa to the Suspension bridge, has its stables, depot and offices in this village. For electoral purposes it is in the county of Russell, for all others in Carleton. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. Distant from Ottawa 1 mile. Mail daily. Population about 800.

Telegraph office—Montreal, Dominion and Great Northwestern Cos. Lines

NIAGARA, formerly NEWARK—An incorporated town of Ontario, county of Lincoln, situated on Lake Ontario, at the mouth of Niagara River, and on the Canada Southern railway (Erie and Niagara division). It contains 4 churches, several hotels and a printing office. Niagara is the oldest town in the province, and was the first capital of Upper Canada. The district was mainly settled by U. E. loyalists at the close of the American Revolution, and was the scene of many stirring events in the beginning of the present century. In 1813 it was burned down by Gen. McClure, of the American army, in his retreat from the north. Niagara sends a member to the Dominion Parliament. It is a favorite resort during the summer months for pleasure and health seekers. Large steamers run daily between Toronto and Niagara. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. Distant 36 miles S. of Toronto by water, 15 miles from Niagara Falls. Mail daily. Population 1,600.

TWO FIRST PRIZES 1881 — Niagara Wood Engraver — TWO FIRST PRIZES 1881 — 76 ST JAMES ST MONTREAL

*NIAGARA FALLS—An incorporated town in the county of Welland, situated on the west bank of the Niagara River. At this point the International Railway Suspension bridge crosses the river, connecting the Great Western Railway of Canada with the several railways of New York, and uniting the territories of the United States of America and of the Dominion of Canada. Here are to be seen Niagara Falls. They are the most stupendous cataract on the face of the globe, situated on the Niagara River between Lakes Erie and Ontario, a great resort of the tourist and invalid, and are annually visited by thousands from all parts of the earth. They present a scene of marvellous grandeur. For a mile above, the river gradually descends some fifty feet, then plunges 165 feet perpendicularly and rushes onward through a narrow gorge until it reaches Queenston, a distance of seven miles; from here it glides peacefully into Lake Ontario. About a mile below the Falls, spanning the mighty chasm of Niagara, 250 feet above a flood of water which man has never yet been able to fathom, stands the Niagara Railway Suspension bridge, one of the grandest achievements of art in the world. Delicate as lace work, and seemingly light and airy, it hangs there, high between heaven and the boiling flood below, more solid than the earth beds of adjacent railways. The concussions of fast moving trains are sensibly felt miles off through solid rocky soil, but a freight train traversing the Niagara Suspension bridge, at the speed of five miles an hour, communicates no jar to passengers walking upon the carriage way below. The land cables of the bridge do not tremble under it—the slight concussions of the superstruction do not go over the summits of the towers. Fast anchored with stone, and rooted in solid rock cut down to the depth of twenty-five feet, the great cables are immovable by any mechanical force incidental to the use of the bridge, or the natural influences it is subject to. The ultimate strength of these cables is 12,400 tons. The total weight of the material of the bridge, and of the traffic to which it will ordinarily be subjected is 2,262 tons, to sustain which the engineer has provided in his beautiful and scientific structure a strength of 12,400 tons. So solid is this bridge in its weight, its stiffness, and its staying, that not the slightest motion is communicated to it by the severest gales of wind that blow up through the narrow gorge which it spans. The following are some interesting particulars in regard to the structure:—Length of span from centre to centre of towers 822 feet; height of tower above rock on American side 88 feet; height of tower above rock, Canada side, 78 feet; height of tower above floor of railway 60 feet; number of wire cables 4; diameter of each cable 10 inches; number of No. 9 wires in each cable 3,569; ultimate aggregate strength of cables 12,400 tons; weight of superstructure 750 tons; weight of superstructure and maximum loads 1,250 tons; ultimate supporting strength 730 tons; height of track above water 250 feet; base of towers 16 feet square; top of towers 8 feet square; length of each upper cable 1,265½ feet; length of each lower cable 1,190 feet; depth of anchor pitts below surface of rock 30 feet; number of suspenders 624 feet; ultimate strength of suspenders 18,720 tons; number of overfloor stays 64 tons; aggregate strength of stays 1,920 tons; number of river stays 56; aggregate strength of stays 1,680; elevation of railway track above middle stage of river 245 feet; total length of wires 4,000 mls. The weights of the materials in the bridge are as follows: Timber 919,130 lbs; wrought iron and suspenders 113,120 lbs; castings 44,332; rails 66,740; cables (between towers) 535,400 lbs; total 1,687,722 lbs. While crossing the Niagara River a view of the stupendous falls can be obtained, as also of the rushing waters immediately beneath the bridge, which at this point are broken up by rocks, and rise in foaming waves to turbulence extreme. Niagara Falls has an extensive general trade, and contains a Church of England, Roman catholic, Presbyterian and Methodist churches and a saw mill. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. The *Niagara Weekly Review* is published here. Distant from St. Catharines 12 miles, from Hamilton 43 miles. Mail daily. Population about 3,000

*Formerly called Clifton.

ORILLIA—A flourishing town in the county of Simcoe, prettily situated on Lake Couchiching (at the northern extremity of Lake Simcoe), and at the junction of the Northern and Midland railways. It contains 6 churches, 2 branch banks, 2 weekly newspapers, the *Orillia Packet* and the *Times*, a lunatic asylum, several grist, saw, shingle and planing mills, 2 iron foundries, 2 woollen mills and 6 hotels. The village was first settled by Indians, who subsequently removed to Rama, on the opposite side of the lake. Orillia is a favorite resort during the summer months. The fishing in the lake is excellent. Steamers run between here and Barrie. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. Distant from Barrie 22 miles, from Toronto 86 miles. Population 3,000.

COLD MEDALIST DYERS, Montreal, Toronto, Ottawa & Quebec. BRITISH AMERICAN DYEING CO., Pisco Goods and Carment Dyers For Addresses see Adv. page 19.

OTTAWA—The capital of the Dominion of Canada and one of the chief cities in Ontario, is somewhat picturesquely situated on the south shore of the Ottawa River, 87 miles from its confluence with the St Lawrence, and at the mouth of the Rideau River. The city obtained its original name (Bytown) from its founder, Colonel By, an officer of the Royal Engineers, whom the Imperial Government commissioned in 1827 to superintend the construction of the Rideau Canal. In 1854 Bytown, by an Act of Parliament, was created a city, and its name changed to Ottawa. In 1858, it was selected by the Queen as the permanent seat of Government of the then Province of Canada, and in 1860 was commenced the erection of the magnificent Parliament and Departmental buildings crowning Barrack hill. The splendor of these buildings, their fine commanding site, together with the beauty of the surrounding scenery, place them in a very enviable position compared with other structures used for similar purposes, and must ever be objects of interest to the tourist and stranger, and pride to the people of Canada. £75,000 was the original estimated cost of the buildings, but unforseen causes, among which were excavations which had to be made in the solid rock, swelled this sum to nearly $4,000,000. H. R H. the Prince of Wales laid the corner stone during his visit in September, 1860. The style of the buildings, which form three sides of quadrangular figures, is Gothic. They are built of cream-colored Potsdam sandstone taken from a quarry in Nepean, some 12 or 15 miles from the city. The arches of the doors and windows are constructed from red Potsdam sandstone obtained from the place of that name in the State of New York. The columns and arches of both chambers are of Arnprior and Portage du Fort marble. The external ornamental work is of Ohio standstone The approach from Wellington street presents a very imposing appearance The main building covers an area of 82,866 superficial feet, is 472 feet in length, and 572 in depth, from front of main tower to rear of library. The body of the building is 40 feet high, and the centre tower—the grand entrance—180 feet high. The Senate and Commons chambers are situated respectively on the right and left of the main entrance. Both are richly furnished, have stained glass windows, are large and airy, and in every respect well adapted for legislative purposes. A gallery is attached to each, capable of seating 1000 visitors. The Departmental buildings face inwards to the square The buildings are all heated by steam and supplied with every modern convenience. The city of Ottawa is well laid out; its streets are wide, regular and uniform, and built upon with, in many instances, handsome stone structures. In the centre of the city, between Barrack and Major's hills, is situated the entrance to the massive locks (eight in number) of the Rideau Canal, which divides the city into Upper

Ottawa—Continued.

and Lower town, and joins the Rideau River. A stone bridge crosses the canal connecting Sparks and Rideau streets, and an iron bridge, named after the Earl of Dufferin, also crosses it connecting Wellington and Rideau streets. At the western extremity of the city are the celebrated Chaudière falls, a scene of imposing grandeur and beauty, unsurpassed in America except by the Falls of Niagara, and even these it rivals in many respects. A suspension bridge, erected at a cost of $66,488, crosses this foaming chasm, and unites the Provinces of Ontario and Quebec. At the north-east end of the city are two other falls of some forty feet high, over which the waters of the Rideau pour themselves with wild impetuosity into the bosom of the Ottawa; although inferior to the Chaudière in point of sublimity and grandeur, they are not without many attractions to the admirers of Nature's works. Altogether the scenery around Ottawa is of unsurpassed beauty—wild, romantic, picturesque—presenting a variety rarely to be met with in any other part of the Dominion. The commerce of Ottawa is constituted almost wholly of lumber. On the Gatineau, the Rideau and the Ottawa rivers numerous mills are constantly in operation, manufacturing more of this truly Canadian staple than is done in any part of Canada. Millions of feet of square and sawn timber are annually exported from here to Great Britain and the United States. Adjacent to Ottawa are several villages, prominent among which are New Edinburgh and Hull. In both large lumbering operations are carried on. Rideau hall, the residence of the Governor General, is situated in the former village. It is a handsome stone structure, with 35 acres of well laid grounds, and beautiful avenues of shaded trees attached. In Hull there is an extensive match factory, and near at hand iron mines which are being worked successfully. Ottawa returns two members to the House of Commons and two to the Provincial Parliament. The Ottawa River Navigation Company runs a daily line of steamers between here and Montreal during the summer months. Three railways enter Ottawa—the Canadian Pacific, the Quebec, Montreal, Ottawa and Occidental, and the St Lawrence and Ottawa. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here, and the following banks have agencies: Bank of Montreal, Ontario Bank, Bank of Ottawa, Canadian Bank of Commerce, La Banque Nationale, Merchants, Bank of Canada, Ontario Bank, Quebec Bank and Union Bank of Lower Canada. Distant from Montreal 120 miles from Prescott 54 miles, from Kingston 95 miles, from Toronto 233 miles, from Quebec 296 miles, from New York 450 miles, from Boston 485 miles, from Halifax 997 miles, from St John, N.B., 850 miles. Mail daily. Population about 30,000.

The Universal Stomach Pump and Enema Syringe,

FOR FAMILY USE.

Patented July 2nd, 1881, in Europe, United States and Canada.

A NECESSITY IN EVERY HOSPITAL. NO PRACTICING PHYSICIAN SHOULD BE WITHOUT IT.

The Universal Stomach Pump and Enema Syringe may be considered a great advance in the means of washing out rapidly the stomach in cases of acute poisoning, and vastly superior to the old system in every particular. The character of the instrument is quite evident.

1st. From its simplicity;

2nd. In its rapidity of action;

3rd. Its cheapness;

4th. With the addition of an extra tube, it supplies the place, either of an Enema Syringe or Stomach Pump, thus bringing it within the scope of every private family.

In these days of fluid carbolic bug poison, and numerous other household poisonous appliances, who would be without a rapid, simple and effective means of rendering relief under such trying circumstances? In hospital and private practice, this simple instrument has been tested and found exceedingly effective and reliable.

The entire operation is such that it can be performed by the most ordinary observer in the absence of a medical man: hence, the importance of this instrument, in cases of accidental poisoning, on all steamboats, in hotels, and every private family. Should any poison be taken, such as Chloroform or Morphine, which would tend to paralyze power of the stomach, the liquid can at once be pumped out by inverting the bulb, thus making the instrument complete under any circumstances.

See pages opp. 619, 669, 693, 935, *and page opp. Montreal Classification.*

OTTERVILLE—A flourishing post village on Otter Creek, township of South Norwich, county of Oxford, and on the Port Dover and Lake Huron railway. A large quantity of sawn pine lumber is manufactured here, and the place has a considerable trade in country produce. It contains 5 churches, several grist and saw mills, a woollen factory, match, shingle, lath and cheese factories, 3 hotels and a weekly newspaper, the *Otterville Guide*. The Agricultural Society possesses a good piece of land, and has erected thereon two buildings. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. Distant from Woodstock, the county town and a station of the Great Western railway, 22 miles; from Brantford 25 miles, from Paris 28 miles. Mail daily. Population about 700.

OWEN SOUND, originally SYDENHAM—An incorporated town and port of entry of Ontario, capital of the county of Grey, situated on Georgian Bay, at the outlet of the River Sydenham, and the northern terminus of the main line of the Toronto, Grey and Bruce railway It is pleasantly situated on a small plain surrounded on three sides with wood crowned heights, and contains manufactories of mill machinery, turbine water wheels, agricultural implements and engines, sewing machines, leather, wooden ware of all descriptions, Canadian tweed and other woollen cloths, etc.; also, two breweries, two brickfields, flour and saw mills, 5 large grain warehouses and elevators, and various smaller works. Here are 9 pretty churches, agencies of the Merchants and Molsons banks, several insurance companies, 13 good hotels, a commodious town hall, a court house, a jail and registry office, and 5 printing offices, from three of which are issued weekly newspapers, the *Advertiser*, the *Times* and the *Tribune*. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. The harbor of Owen Sound is the best on Lake Huron. It is 12 miles long from the town to its mouth, where it is 5 miles wide, and throughout its entire length it is completely sheltered on both sides It has good anchorage ground and considerable depth of water, and is navigable for vessels of the largest capacity on the lake. A large number of vessels are engaged in the grain and lumber trade. Distant from Toronto 122 miles. Population 4,426.

PARRY SOUND—A village on the Georgian Bay at the mouth of the Seguin River, in the township of McDougall, district of Parry Sound. Extensive lumbering operations are carried on in the district of which Parry Sound is the chief place. Mills for the manufacture of lumber furnish employment to a large number of men. There is a magnificent land-locked harbor. Vessels of the largest tonnage load from the lumber docks. The village contains Episcopal, Methodist and Presbyterian churches, Masonic and Oddfellows halls, and 2 hotels. A weekly newspaper, the *North Star*, is published here. This place is an excellent summer resort. The scenery immediately surrounding the village is grand, and the neighboring rivers and lakes furnish excellent fishing. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. Distant from Collingwood 70 miles, from Toronto 165 miles, from Gravenhurst 64 miles. Daily steamer to Collingwood in summer. In winter stage to Gravenhurst. Mail daily. Population 1,000.

PEMBROKE—An incorporated town on Allumette Lake, an expansion of the Ottawa River, township of Pembroke, county of Renfrew, and on the Canada Central railway. It is the county seat. This village was laid out by Alexander Moffat, Esq. The county buildings, which are constructed of a beautiful freestone, quarried from an island in the vicinity, present a chaste and elegant appearance. Pembroke is the residence of a large number of lumber merchants, and being situated in the very heart of the Ottawa lumbering district, is the depot from which the supplies are drawn for the support of the army of men who are continually engaged in taking timber from the forests. On this business Pembroke mainly depends. The Muskrat River flowing out of Muskrat Lake, and emptying itself into the Ottawa about the centre of the town, is broken by a succession of falls for some distance from its mouth, thus affording an attractive acquisition to the town and several excellent water privileges. On this course numbers of saw and grist mills are erected. The scenery of the Ottawa above Pembroke is beautiful in the extreme, and were the means of reaching it more expeditious and direct, numbers of tourists and pleasure seekers would no doubt annually make their way thither. It contains 5 churches, 2 branch banks, several insurance agencies, 7 hotels, axe factory, saw, grist and woollen mills and 2 weekly newspapers, the *Observer* and the *Standard*. At present during the season of navigation the route to Pembroke is by the Union Forwarding Co's. steamers from Ottawa daily, via Muskrat lake and river; or by stage from Sand Point. One of the above named Companies steamers plies between

PENETANGUISHENE—A large village in the townships of Tay and Tiny, north riding of the county of Simcoe. It is at the head of Penetanguishene Bay, at the northwest side of Gloster Bay, Lake Huron, and the terminus of the North Simcoe branch of the Northern railway. The chief trade of Penetanguishene is in furs and fish, and in produce and cattle for the supply of the mines on the north shore of Lake Huron. The Reformatory prison for the province of Ontario is located here. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. Distant from Barrie, the county town and a station of the Northern railway, 40 miles; from Toronto 100 miles. Mail daily. Population about 1,200.

PETERBOROUGH—An incorporated town in the township of Monaghan, capital of the county of Peterborough. The streets are all wide, laid out at right angles, well drained, and lighted with gas. The modern buildings, public and private, are of fine architectural design, and built of the celebrated white brick manufactured there. There are 8 churches of all denominations, 15 hotels, county buildings, town hall, 4 ward and 1 separate schools, Collegiate institute, Mechanics' institute, law library and club, 4 bank agencies, viz., Montreal, Toronto, Ontario and Commerce; five newspapers, *Evening Review*, daily, *Examiner*, *Review*, *Times*, weekly, and the *Canada Lumberman*, semi-monthly, are published here. There are also 5 saw mills, 4 flour mills, 3 woollen mills, 1 of which employs 120 hands daily, 2 manufactories of agricultural

NEW FEATURE.—The Citizens Insurance Co. is the only Company granting an allowance for disfigurement of the body the result of accident. No other Accident Company in Canada grants this or other liberal features introduced in the Citizens' New Policy, $5 per $1000 per annum. Agents wanted to work this branch.

Scottish Ontario and Manitoba Land Co., (Limited) WM. B. SCARTH, Commissioner, 32 Toronto st., TORONTO.

Peterborough—Continued.

implements, steam engines, mill machinery, manufactories of furniture, doors, sashes, furs, leather, brick, pottery, etc., etc. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. The town is beautifully and convenient'y situated on either bank of Otonabee River, which is spanned at that point by six bridges, 2 for railway and 4 for ordinary traffic; the water being dammed at five places, giving an aggregate fall of about 50 feet, and an unlimited power for manufacturing and other purposes; and about mid-way between waters of Lake Ontario and Georgian Bay, on the route of Trent Valley navigation and the centre of a rich rolling agricultural country, which supplies the town with an annual export trade of about 150,000 bushels wheat, 15,000 barrels flour, 275,000 bushels barley, 30,000 bushels peas, 300,000 pounds butter, and 250,000 pounds cheese, besides the large quantity of supplies consumed in her lumber and other extensive manufactories, the export of lumber being 30 million feet annually.

The railway connections are Midland railway, south to Port Hope, 31 miles, north-west to Georgian Bay, via Lindsay and Orillia, 85 miles, north-east to Lakefield (connecting with 24 miles of navigable waters there), 9 miles: Grand Junction railway, south-east to Belleville, via Hastings, Campbellford and Stirling, 64 miles, and north-ward 7 miles to Chemong Lake, connecting there with a line of steamers to Bobcaygeon, Lindsay and Fenelon Falls, on the Victoria railway, a distance of 30 miles to the latter point on the waters of the Trent Valley route, and a line of steamers connects with all points south and east on Trent Valley route, a distance of 50 miles, including Rice Lake and its charming summer resorts; and with Cobourg and Peterboro' railway at Harwood. Mail daily. Population about 7,000, or, including Ashburnham, about 8,000.

PETROLIA—An incorporated town situated on Bear Creek, in the heart of the petroleum oil region, township of Enniskillen, county of Lambton, with a station on the Great Western and Canada Southern railways. The quantity of oil obtained in and around the place is immense. About 8000 brls of crude oil are produced weekly, of which 5000 crude and about 1000 refined are exported. Several large underground tanks have been built, which are said to contain 100,000 barrels, and there are eight refineries at work producing over 1000 barrels weekly. The annual revenue obtained from the oil trade is over $250,000, in addition to which lumbering is carried on here in the winter to a great extent. It contains Episcopal, Roman Catholic, Presbyterian, Methodist and Baptist churches, over 10 petroleum stills and refineries, 2 flour mills, a flax mill, 7 hotels and 2 weekly newsapers, the *Petroleum Advertiser* and *The Topic*. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. Distant from Wyoming 5 miles, from Sarnia, the county town, 16 miles; from London 50 miles, from Hamilton 127 miles, from Toronto 166 miles. Mail daily. Population about 3,000.

PORT HOOVER—A post village on the shore of Lake Scugog, township of Mariposa, county of Victoria. It contains a saw mill. Distant from Lindsay, the county town and a station of the Midland railway, 14 miles. Mail daily. Population about 120.

Haightley John, saw mill

PORT HOPE—A flourishing incorporated town situated on the north shore of Lake Ontario, in the township of Hope, county of Durham. The location of the town is very pleasant, the site extending over a valley and the surrounding hills, and though, owing to natural obstructions, it is rather irregularly laid out, the appearance it presents, viewed either from the lake or any other avenue of approach, is very picturesque. Its churches, hotels, shops and private residences are creditable to the enterprise and taste of the inhabitants. The principal streets are lit with gas. Smith's Creek, flowing through the centre of the town, affords fair water power, advantage of which has been taken in the erection of several manufacturing establishments, embracing four flouring mills, a plaster mill, planing mill, woollen factory, button factory, cabinet factory, tannery, two breweries and a distillery. Port Hope possesses one of the finest harbors on the lake, from which lumber, grain, iron ore and flour are annually exported to a large amount. There has recently been erected in connection with the Midland Railway, one of the largest and finest elevators to be found in any of the Lake Ontario Ports. An extensive fleet of schooners is engaged in this trade, and, being mostly owned in the town, form no mean addition to its wealth. The southern terminus, head office and works of the Midland Railway of Canada are situated here, and the gauge of this road being the same as that of the Grand Trunk, with which it forms a junction, every facility is afforded for the shipment of its through freight. The Grand Trunk railway has a station at which all trains stop. The steamers of the Richelieu and Ontario Navigation Co. call here regularly; there is a daily steamer to Charlotte, N.Y., the Port of Rochester, on the opposite shore of the Lake. Montreal, Dominion and Great Northwestern Telegraph Cos. Lines have an office here. There are also agencies of the Bank of Montreal, Bank of Toronto and Canadian Bank of Commerce. One daily and three weekly newspapers are published, *The Times*, *The* (daily and weekly) *Guide* and *The News*. *The Craftsman*, the organ of the Masonic fraternity of the Dominion, is published from the office of the *Times*, by R. W. Bro. John B. Trayes, P D.D.G.M. Distant from Cobourg 7 miles, from Peterborough 31 miles, from Rochester 68 miles, from Toronto 63 miles, from Montreal 270 miles. Mail daily. Population, census 1881, 5,588.

Adams Allan A., proprietor Queen's hotel, cor John and Walton. *See Adv. p* 370
Addy James, harnessmaker, Walton

NEW FEATURE.—The Citizens Insurance Co. is the only Company granting an allowance for disfigurement of the body the result of accident.
